

Experiment #4  
24 Second Shot Clock

ECE 367  
Spring 2012

Shuaib Shameem  
673551999

February 16th, 2012

TA: Yasaman Keshtkarjahromi

Schematic, Program Code, and Logic Diagram attached to the end of report.

User Manual:

To reset the program, press the top button.

To start/pause the clock, press the bottom button

Conclusion:

This lab was fairly simple, once I got past how to incorporate button polling into my delay. The circuit is unchanged from the previous lab.
